

## Rovtech Solutions Ltd Finance Options

Rovtech Solutions Ltd have teamed up with Portman Finance Group to provide new and existing customers fast and flexible finance solutions to support their investments in the purchase of underwater inspection systems, ROVs and ROV tooling.

With Rovtech's support marine inspection and marine intervention companies can get what their business needs now without impacting on short term cash flow, affording the best quality products, boosting medium- and long-term growth plans.

As an alternative to using credit cards and overdrafts, terms up to 6 years means the costs can be spread with fixed rates, assuring affordable monthly rates.

With potential tax advantages (consult an accountant) significantly outweighing the borrowing costs, it makes sense.
